We met a guy at a bar while on pass last weekend. He was just another guy. Nothing on the arm -stripes or women. The guy had a drink in his hand and a beef on his mind. He started spilling:

"You know, these civilians are disgusting. Look at 'em in here, out there. They don't give a damn about the war. We knock ourselves out, they have a picric. Lousy, isn't it?

The bar was smart, the glass felt nice in the hand. But you don't argue with that kind of a guy. We sifted out.

Standing on a street corner, it seemed the guy was right about although the job is scheduled to the unconcern. The teeming mil-be finished May 15, the possibillions wefe in a good mood as they flowed by.

They talked about Charlie Barnet, Lana Turner, a sailor who didn't show up and a marine who kitchen only and will not be for a took his place, a dress for \$15.95, a spaghetti joint downtown, and a host of little paltry things. They were out to spend a couple of bucks on a million dollar chunk of America.

They got a bang out of a scared cat and an irate cab driver. They came out early so they could see the neon before it was turned off. Heretofore hot food and drink has And they made the little guy with the beard smile because they bought a lot of peanuts.

The teeming millions were in a good mood. But not because they'd forgotten the war. No. Rather because they were taking the war in stride.

Tunisia. They'd shelled out for bonds and were getting ready to bleed out a few more bucks for a few more bonds. They were eating tough meat-when they could get it. They had no gas, no tires, no coffee, no butter.

They had a few things thoughbesides a pocketful of ration books. The weather was nice. The guy had a good-looking gal, and the City Baseball gal had a good looking guy. The Tickets Not

New Kitchen **Extension Being** Added to YMCA

2nd Addition to Parent Building Expected to Be Finished May 15

A kitchen annex, second addition since the parent structure was built, is now under construction at the post YMCA and is expected to be completed by May 15, it was announced this week.

The new addition, to be 25 by 14 feet, is being constructed above the Y administrative offices on the south side of the building. Construction began March 22 and materials may prolong the project.

The extension will be for a caféteria as some have supposed, it was said. The Ritchen will be completely equipped with stoves, coffee makers, sinks, new dishes

and new silver. The kitchen is designed to provide greater facilities for serving refreshments and light lunches at the Y's many social functions. been prepared on small hotplates. Six-Man Cast To Compete In Golden Contest Sunday

Three Widely Diversified Ballets To Be Presented

by PFC. EDWARD SMITH

One of the outstanding musical events in Fort Hancock's history occurs tonight when the famed Ballet Russe de Monte Carlo, for years considered the greatest ballet company in

the world, will present three of its productions at Theatre No. 2 at 8 p.m. for the enlisted men and officers of the post. The company will make its appearance under the auspices of USO-Camp Shows, Hugo Baldini, head of USO-Camp Shows, and the Special Services Officer, Major Robert F. Spotts-wood of Fort Hancock.

The Ballet Company will bring down 63 members including 41 dancers and 22 musicians, and the three ballets to be presented will be selected from a list of four, as follows: "Rodeo," "Pas de Deux," "Les Sylphides" and "Prince Igor." The latter may be substituted for one of the first three.

Principal dancers to appear in "Rodeo" will be Lubov Roudenko, Paris born, and a daughter of Russian emigres; Milada Mladova, Oklahoma-born and Americantrained, who recently scored in the Warner Brothers film, "Gaite Parisienne" and Frederick Frank-lin, British dancer, a former vaudeville hoofer in Paris and a child radio star on BBC.

In "Pas De Deux," the principals will be Alexandra Danilova, probably the foremost female ex-ponent of the Russian dance before the public today, born in St. Petersburg, and trained at the Russian Academy of the Dance, and Igor Youskevitch, Jugoslavian dancer, who is probably the fore-most male classical dancer of the present day. Youskevitch has been with a circus, appearing on the trapeze, as a bareback rider, as a tumbler and an acrobatic dancer.

"Les Sylphides" will feature three stars including Milada Mladova, Natalie Krassovska, winner of the title "Miss Russia" in Paris, and a descendant of a long line of famed Russian dancers, and Roland Guerard, a North Carolinian, who was with Chester Hale's

They've got the edge on this war. The war hasn't got the edge on them. The guy with the drink in his hand and the beef on his mind has the real problem; not the civ- ilian. DOT-N-DASH by Pfc. Paul H. Jones

The Saturday night dance at the Service Club was a success as far as the members of our outfit were concerned. Some, however, were not dancing. We saw Sgt. Gordon Reily standing on the sidelines, letting all his Irish charm go to waste. Why didn't you give the girls a break, Sgt.?

Sgt. Thomas Llovd caused many a flutter among the ladies waiting to dance. Did not give them a tumble. Perched on the piano "a la Morgan." When he would leave it to walk around, the girls would get ready to accept a dance, but he never asked them.

Not so with Sgt. Alan Raffalovich. Never saw a man work so smoothly. Southern boy has method that fairly glides. Lady in the red dress certainly was impressed. Sgt. William Coldeway we thought was shy; appeared wistfullike watching the dancing. But we were mistaken; never did see a man move so quickly toward a gal, when he got to going. Heard a lady remark, "My, what nice red hair he has."

Happy was a mild word to use to describe Sgt. Donald Decker. Had a smile that divided his face in half. Certainly was confident; he let Sgt. Alan Raffalovich come and speak to his lady friend. Something that I would never do. Our good friend, Sgt. Samuel Conover slithered over the floor like a professional. All we can say in regard to our Sammy is "L'amour Toujours L'amour" Sgt. Cpl. George Belis, Romeo and Mail Clerk, sat at a table sharing his lady friend with Cpl. Henry Charpentier. The two gentlemen ignored one another completely. We had a suspicion that Cpl. Charpentier could have done well without the company of Cpl. Belis.

Team Climbs; Montreal Wins But Score Close

Royals Take Scant 5-4 Victory in Five Inning Encounter Tuesday

Improving in each game but still looking for a win, Fort Hancock baseballers will take two more cracks at the International League next week when they meet Jersey City Monday afternoon and Newark Tuesday afternoon here.

The Hook club dropped its games with the Montreal Royals Tuesday and the Third Naval District last Saturday, but both contests were lost by only one-run margins, 5-4 and 8-7 respectively. Hancock missed a Merriwell finish in both encounters by making the final out with the bases loaded.

The Royals scored four times in the first inning and once in the third to take a five run lead. Hancock came back with four in the last half of the third, and kept threatening throughout the rest of the game.

The International League Club started off with a bang with Corriden, the center fielder, smashing a double to center and taking third on a passed ball. Campanis popped to Bleyman and Mongan walked. Simmons' hot smash went through Addonzio, letting in the first run and Stewart's line single to left brought in two more. Stewart took second when Bielecky dropped Boelkow's throw from left and scored the final run of the inning on Cummings' base hit to center. The professionals picked up their last run in the third on a pass to Stewart, a stolen base and Cumming's double over Muller's head in center.

Daily Drills Help 1-Bs **Become 1-As**

Flat feet were grounds for a 4-F classification in World War I, but in this war they rate not only a regulation set of GI brogans. but a reconditioning job as wella job almost guaranteed to equal the mileage of the best 1-A dogs.

At least, this is the result indicated by Fort Hancock's physical rehabilitation program, now being carried on in the gymnasium of the Post YMCA. The program has been in effect approximately one year now, and more than 200 soldiers have been "graduated" during this time.

Correcting cases of flat feet comprise but one phase of the program. Avoirdupois is melted off in cases of overweight, limbs and 8:30 p.m. Post Theatre No. weakened by fractures or other injuries are given an overhauling, limbs impaired by infantile paralysis are strengthened, and mainly a general coordination of muscles, joints and nervous system is achieved.

Physical rehabilitation is accomplished simply, through corrective exercise designated for each individual case by officers of the Medical Corps. The "toughest" part is perseverance, attending the classes five afternoons a week for 45 minutes each afternoon.

For those with flat feet, the chief exercise is picking up glass marbles with the toes of the feet. The heavyweights with the wide verandas do sit-ups on an inclined abdominal board. Others work on rowing machines, swing on traveling rings, climb ropes, lift weights and perform simple calisthenics such as knee bends, stretches, body presses and similar exercises.

WAR BONDS AND THE SOLDIER

The second War Loan Drive was launched this week. Its goal—13 billion dollars to finance the war, most of which is expected to come from private investors.

That doesn't just mean your father or your mother, your sister, brother, sweetheart or wife. That means you too, soldier. You've got a pretty big stake in the future of this country too, you know.

And yet we have already heard soldiers take refuge behind the slogan of the campaign-"They give their lives .. you lend your money." Already soldiers have been heard to say, "I'm in a uniform-I've done my part."

Well, getting into uniform is little enough considering the stakes involved. Just ask the boys back from Guadalcanal. They'll tell you the difference between just getting into uniform and fighting in one. And yet those boys are buying bonds. They figure that if this is a country worth fighting for, then it's certainly a good risk for a 10-year loan at 2.90 per cent on your investment.

Newspapers devoted columns of space to the second war loan drive the day it was launched. They pointed out that it is not only patriotic to buy bonds, but it is also removing purchasing power for needless luxuries from the public's hands and placing it in the custody of the Government. They cited the fact that the Government can borrow and tax, both anti-inflationary measures, or it can resort to printing money, which leads straight to chaos and ruin, as Germany found out after the First World War.

Just how much does all this mean to the average soldier? Is he interested in having his excess power curtailed? How many soldiers have excess purchasing power anyway? Well then, let's think about it in terms of human lives, in some down to earth talk, such as we found in a couple of ads run by New York department stores to help launch the drive.

Here was one of them:

"1918—The last war ended at 11:00 A. M. on November 11th, 1918. In those last few hours 1,021 American soldiers were killed in action or seriously wounded. Every bond you buy can help end this war seconds sooner."

Here's another, based on the diary of Martin Treptow, an American soldier, in which he wrote, just before he died for his country at Chateau Thierry in 1918:

"I will work: I will save: I will sacrifice: I will endure: I will fight cheerfully and do my utmost: as if the whole struggle depended on me alone."

"These words," the advertisements said, "should be the sacred pledge of every one of us determined upon victory; and the way to keep that pledge is to buy War Bonds." We liked this one, too.

It's Lana Turner, the girl with the banana split personality. She's a soda jerkess by day and a debutante by night in the M-G-M laugh hit, "Slightly Dangerous," co-starring Robert Young and coming to Post Theatres next Wednesday and Thursday.

How much is a life worth? Our brothers and husbands, and sons don't question, they just go. Thirteen billion fighting dollars are now needed for those men for guns and tanks, planes and bombs, ships and shells. It's our job to supply that money. Buy more War Bonds now.

That's plain talk and it makes sense. We don't know what you guys are going to do about it, but we think we're going to hie us down to the War Bond office now and make another investment in the country's future.
